

Military Fabrics

By Seaman Corporation

Shelter-Rite® Vehicle Covers and Tarpaulins

Vehicle Covers

Unlike many vehicle cover fabrics that feature a laminate on the outside only, which can wear off or delaminate, Seaman Corporation fabric features a coating that is applied using a process that forms a monolithic bond with the base fabric for superior peel resistance and seam strength.

- Excellent peel resistance
- Superior seam strength
- Fade resistant color
- Fungus resistant
- Meets MIL-PRF-20696F, MIL-PRF-32002C
- Available in olive drab, forest green, sandstone, red, dark sand, Navy gray, black, desert tan, dark tan and green
- Berry Amendment Compliant

Seaman Corporation is a global leader in the development of a broad range of high performance fabrics for military applications including dehumidified storage and warehousing facilities, tents, fuel tanks and potable water tanks. With a 60-year track record, Seaman Corp. has developed innovative fabric solutions for the roofing, civil engineering, architectural and marine industries.

Consistent product quality for consistent field performance.
